Chemical Weapons Alternatives

Assembled Chemical Weapons Alternatives

A Partnership for
Safe Chemical
Weapons
Destruction

The Program Manager Assembled Chemical Weapons Alternatives is a dedicated team identifying, demonstrating and pilot testing alternative destruction technologies for assembled chemical weapons stored in Colorado and Kentucky, as mandated by Congress.

Pueblo Chemical Depot, Colorado

Plans are underway for the design and construction of the Pueblo Chemical Agent-Destruction Pilot Plant. Neutralization followed by biotreatment will be used to destroy the chemical weapons stockpile.

Blue Grass Army Depot, Kentucky

At the Blue Grass Chemical Agent-Destruction Pilot Plant, neutralization followed by supercritical water oxidation, or SCWO, will be used to destroy the chemical weapons stockpile.
