

Assembled Chemical Weapons Alternatives

The Assembled Chemical Weapons Alternatives Program is responsible for chemical stockpile destruction at the Pueblo Chemical Depot, Colorado, and the Blue Grass Army Depot, Kentucky.

Ensuring safety and encouraging active community involvement are essential elements to realizing this mission.

"The future depends on maintaining open communication with interested stakeholders and consistent collaboration with our partners in the chemical storage and demilitarization communities."

Mr. Michael A. Parker

Program Manager Assembled Chemical Weapons Alternatives

A PARTNERSHIP FOR SAFE CHEMICAL WEAPONS DESTRUCTION
